## Louisiana Board of Regents

# Student Level Data Submission System Specifications January 2024

## **Project Overview**

To allow for Board of Regents staff to the most recent data for the Murphy J. Foster Promise Program prior to the 2024 Louisiana Legislature Session, licensed proprietary schools who have MJ Foster Eligible Programs will submit data for their MJ Foster students and programs covering the first six months of 24-25 fiscal year.

#### **Due Date:**

This off-schedule submission will be submitted between January Monday, January 29, 2024 and Monday, February 19, 2024.

#### **Period Covered:**

Report on all students in courses that are part of a specific MJ Foster program during the period July 1, 2023 through December 31, 2023.

#### **Reporting Process:**

Registering your Institution and Institution Representative Process

You will submit your institution's Student data through the Enrollment/Completions System Portal at the Louisiana Board of Regents' Web Site. If previously registered, no additional registration is required. Please see the EC User Guide for more details if needed.

#### Submitting the Data

The data template is available for download in the portal under the instructions tab. Once the portal is open, you will see icons to upload your data via a CSV file. You will receive an e-mail when your file is finished processing. If there are any validation errors or data issues, the Board of Regents will notify you to discuss any data related issues and discuss ways to correct and resubmit any needed corrections. See Guide for more details if needed.

#### **Notes:**

This is a snap shot of MJ Foster activity at your institution during these six months. If a student attended your institution in one of these programs between July and December, they should be included EVEN IF THEIR ENROLLMENT DATE WAS PRIOR TO JULY 1, 2023!! A student must be enrolled in a specific program, with a defined and unduplicated combination of Institution code, CIPCODE, CIP Extra, PROG CERT. A student may be listed more than once if they are enrolled in more than one unique set of these variables.
