

# **STUDENT CLOCK HOURS OF INSTRUCTION**

## **TABLE 8**

The number of student clock hours is calculated for each course by multiplying the number of hours the course meets each week by the number of students enrolled at the end of the drop/add period. The number of hours that the course meets each week is computed by rounding the class length to the nearest half hour and multiplying by the number of times the class meets weekly (hours the class meets \* days per week class meets \* number of students enrolled).

The column headed "Other" reflects instruction in rooms with room types other than "110" (classrooms) and "210" (laboratories).

The number of clock hours is used directly in the calculation of space factors.
