Student Level Data System Specifications for Validated Skills and Learning

June 2026

New for this year

We have added some additional fields. To capture more information regarding work-based learning, we have added the two fields “Work-Based Learning Paid” and “Work-Based Learning Type & Hours.”

Work-Based Learning Paid specifies if the work-based learning component was paid or unpaid. Work-Based Learning Type & Hours specifies how many total hours are attributed to this work-based learning component during the duration of the student’s program.

We have also added two new identifier fields: “High School Student” and “Prisoner.” The High School Student Identifier designates if the student is concurrently enrolled in high school while pursuing the Validated Skills and Learning (VSL) program. The Prisoner Identifier designates if the student is incarcerated and attending an institution that is authorized to teach prisoners.

FAQ/Tips

What do I do if I don’t know the exact start or completion date?

- Enrollment Date: If you don’t know the exact starting date, please use the 15th of the month in which they started.
- Completion date: If you don’t know the exact completion date, please use the 15th of the month in which they completed.

What is a CIPCODE?

- A CIPCODE is a **six-character** code developed for the National Center for Educational Statistics (NCES), which corresponds to a major field of study. All your programs have an associated CIPCODE already assigned. You should have received an Official Listing of your proven programs which includes the appropriate CIPCODE for programs that you provide. For additional information on CIPCODES, you can visit the NCES’ web site at this link: <https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=56>.

What are my Programs and how are they defined?

- The programs that you provide to your students consist of a specific CIPCODE with a specific Award Type (or degree/certification level). Also, it includes additional variables that will help further define or differentiate the program

from other similar programs at your institution. These differentiating variables are Program Modality and CIP Extra. The use of CIPCODE/Award Type/Program Modality/CIP Extra defines a specific program at your institution. Your Official Programs have been identified and shared with your institution already. However, if you need to refer to your Official Programs, you can contact us via this link and we will send you your specific program listing.
<mailto:EC-Helpdesk@laregents.edu>.

Why do I need to provide the Students' SSN?

- First, we take the security of our Louisiana Citizen Students' personal identifiable information (PII) very seriously. We will never share or report on individual students' PII data. We will only use aggregate data in our reports. We do use students' SSN to help clarify student information. We do combine student data from several different data sources, such as our public institutions or against data from Louisiana Works.

Student Program Status, what is this?

- This is a variable that indicates possible outcomes for your students. This is an end-of-term/academic-year indicator that helps us determine what happened to the student after participating in one of your programs. Please see the Student Program Status definition further down in this document.

Due Date:

Annual Submission. The Submission Period will open on July 21, 2026 and close on August 4, 2026.

Period Covered:

Reporting Process:

Please reference the user guide, provided separately on the Licensed and Workforce Validated Skills and Learning (LWVSL) System at the Louisiana Board of Regents' Web Site.

Notes:

A student must be enrolled in the required course work of a specific program to be listed in this data file. A specific program is defined as a unique and unduplicated combination of Institution code, CIPCODE, CIP Extra, Award Type, and Program Modality. A student may be listed more than once if they are enrolled in more than one unique set of these variables.

Appendix

Work-Based Learning Types

AP = Apprenticeship

An agreement between a person (an apprentice) who wants to learn a skill and an employer who needs a skilled worker and who is willing to sponsor the apprentice and provide paid related practical experience under the direction of a certified journey person in a work environment conducive to learning the tasks, activities, and functions of a skilled worker. Apprenticeship combines about 80% at-the-workplace experience with 20% technical classroom training, and depending on the trade, takes about 2-5 years to complete. Both the workplace experience and the technical training are essential components of the learning experience.

CA = Capstone

A culminating academic project – often research, design, or applied work – completed in the final year of a program. It demonstrates mastery of program competencies and may involve an employer or community partner.

CL = Clinical Experience

A supervised placement in a healthcare, counseling, social service, or related professional setting that provides direct exposure to clients, patients, or professional practice environments as part of an academic or credentialing requirement.

CO = Co-operative Education

May consist of alternating academic terms and paid work terms or of several co-op work terms back-to-back. The work terms provide experience in a workplace setting related to the student's field of study.

IN = Internship

Structured, supervised work experience that provides the student with practical exposure to a profession, industry, or career field related to their academic or career interests. Internships may occur in the middle of an academic program or after all academic coursework has been completed and prior to graduation. Typically of limited duration.

PR = Practicum

Work experience under the supervision of an experienced registered or licensed professional, typically required as part of an academic program, that allows students to apply classroom knowledge in a professional setting.

RE = Research Experience

A faculty-, institution-, or employer-sponsored experience in which a student participates in scholarly, scientific, technical, policy, or applied research activities, including data collection, analysis, experimentation, or dissemination of findings.

SL = Service Learning

Integrates meaningful community service with classroom instruction and critical reflection to enrich the learning experience and strengthen communities. In practice, students work in partnership with a community-based organization to apply their disciplinary knowledge to a challenge identified by the community.

SE = Student Employment

Paid employment undertaken while enrolled as a student, either on-campus or off-campus, that may contribute to the development of professional, technical, leadership, or workplace skills. Student employment may or may not be directly related to a student's field of study.

UK = Unknown
